

Homework: Is driver a right or privilege

What I think is that Driving is a right because I think that everyone should have the right to drive as long as they pass the test from the class and pass the driving test, but there if the driver has broken the rule, the government should have the right to take away your license and you right to driving until they have learned to drive and don't break the law. If the driver has made many mistakes and breaking the law, they should be removed from the right to drive.
